

## INTERNSHIP OPPORTUNITIES

*The Nature Conservation Council (NCC) is the peak conservation group for New South Wales, representing more than 100 community environment groups across the state.*

NCC is pleased to offer four exciting internship opportunities from July to October 2010:

- Climate Change Intern – Walk Against Warming (Promotion)
- Climate Change Intern – Walk Against Warming (Coordination)
- Biodiversity Intern – International Year of Biodiversity (Coordination/ Promotion)
- Member Support Intern – NCC Annual Conference (Coordination).

The interns will be based at the NCC's modern office in Newtown. The working hours for each internship are negotiable (3-5 days/week).

### Selection Criteria

The internships are open to dynamic, self-motivated applicants who satisfy the following criteria:

#### *Essential*

- excellent written and verbal communication skills
- demonstrated passion for conservation and environmental protection.

#### *Desirable*

- knowledge of environmental issues
- previous experience in event coordination
- previous experience communications and/or promotion
- graphic design skills
- web design skills.

### How to apply

Interested applicants should submit: (a) a cover letter; (b) curriculum vitae; and (c) contact details of two referees, to [ncc@nccnsw.org.au](mailto:ncc@nccnsw.org.au). **Due date: 12 July 2010.**

Each application will be considered for all four internships. If you have a preference for a particular internship, please indicate your preference in the cover letter.
